EBM Airless Bottle < 100 ml

Looks like an atmospheric pump. Dispenses as an airless.

EBM (extrusion blow molding) Airless material options

PCR Airless ▶ opt for PCR PE & PCR PP for material option.

Protect Marine Life ▶ opt for recycled PE made of post-use fish nets and fishing

uses plastic
70% less
than piston
type airless

The lighter, reliable, and cost-competitive extrusion blow molding (EBM) Airless Bottle requires no assembly and uses 70% less plastic than the piston type. It broadens the applications from Beauty Care to Hair Care, Household Care, and beyond. From 15 ml to 250 ml, it gives options to formulate products without preservatives or additives, EBM airless handles products of various viscosities, an opportunity to transform commodities into organic, clean beauty. Botanical and vegan, free of preservatives, the clean beauty trends require sustainable and efficient packaging for best protection, and EBM Airless Bottles are the answer.
