

AMARI

Twist-lock, Refillable
EBM Airless

www.srpackaging.com

EBM Airless features an on-off twist-lock pump.

AMARI is the minimalist, streamlined style EBM Airless featuring a sleek dispensing airless pump with an on-off twist lock. The refillable design enables users to replace the emptied cartridge with a new filled one, a green merchandise with an appealing packaging design.

It is built for gender-neutral skincare solutions as the beauty trend has slowly shifted beyond gender differentiation.

More and more companies are providing beauty solutions for men and women based on specific skin conditions.
