

EBM AIRLESS

From 15 ml to 500 ml, it gives options to formulate products without preservatives or additives,

Extrusion blow molding bottles can now, be airless or atmospheric. Both are chemically compatible and impact-resistant, with unlimited geometries and decoration possibilities. Each **EBM airless bottle** has an antioxidant inner pouch that prevents contents from contact with air and maintains freshness.

Without worrying about air contact, EBM Airless Bottles allow brands to transform regular products into eco-friendly, natural, organic, clean beauty products free of preservatives and additives. Matching with airless pumps or sprayers EBM Airless Bottles are a perfect match for products of various viscosities.

Lighter and Reliable.

EBM Airless Bottles require no assembly and uses 70% less plastic than the piston type.

ECO

Reduces 70% plastic usage.
Increases 30% filling capacity.
