

Proven to work for various viscosity types.

Back Suction PUMPS

Back Suction pumps have better-engineered content passageway that withstands temperature changes and usage trials, and are chemical resistant and mechanically robust.

Output. 0.7 cc / 1 cc

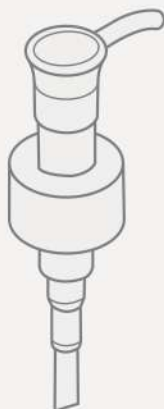

PATENT. 200920213472.X

- ✓ Sucks back the product
- ✓ No residue on the tip.
- ✓ No dripping onto the bottle.

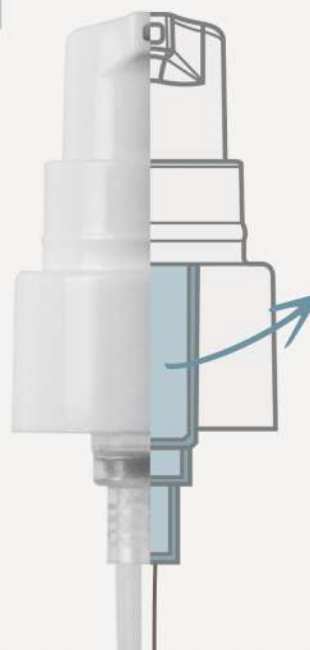

The pumps match makeup removers, cleansing oils, and various oil-based skincare products.

Pumps for skincare at-home or travel sets.

18/410 , 20/410 , 24/410
Output 0.2 cc

24/410
Output 1 cc

External Spring

(plastic valve in place of metal ball)

A plastic valve replaces the steel ball used for conventional pumps to ensure products are free from metal contact.

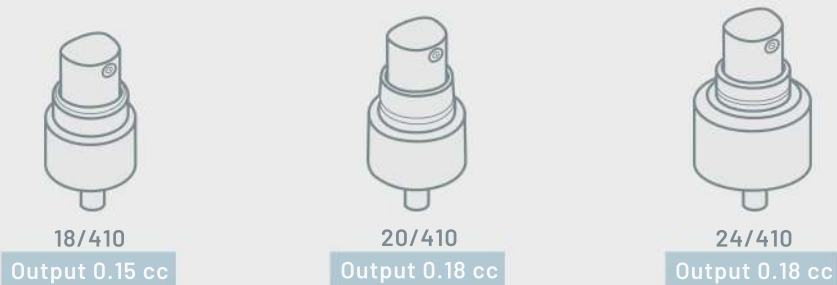

Superfine Mist Sprayers

Hydrating Mist, Hair Rescue Spray, Makeup Setting Spray, and many more.
